

## Traditional Audit Methods Fall Short

- Everything in the cloud
- Increased regulatory burden
- · Ephemeral tech
- Exponential speeds

## **Advantages of Being Always Audit-Ready**

- Up to 60% reduction in audit prep time
- Real-time risk assessment and doc updates
- More agile response to regulatory changes

## **Best Practices for Being Always Audit-Ready**

- Implement a Continuous Controls Monitoring (CCM) platform to manage compliance and risk activities
- Leverage AI and automation tools
- Maintain real-time compliance docs
- Integrate data from tools across the tech stack to make better decisions
- Choose a CCM platform that supports a wide range of compliance frameworks
