

# Manage Compliance & Risk Your Way

Holistic, Customizable GRC Management with RegScale's Export Builder

Gone are the days of copying and pasting from one document to another and hoping the format is correct. RegScale's Export Builder gives you the ability to generate specific compliance outputs in any framework's native format, while allowing you to manage your risk and compliance your way.

## Consistently Respond to Audit and Attestation Requests

- ✓ Build once and share many for exports with reliable outputs
- ✓ Automatically include any data type and evidence in your exported packages
- ✓ Eliminate broken formatting and missing information and avoid back-and-forth requests with team members

## Any Format, Any Framework

- ✓ Import sample documents and let RegScale build your GRC outputs for you
- ✓ Easy-to-update forms help you keep up with changing regulatory requirements
- ✓ Generate internal reports as well as documentation for regulatory frameworks

## Save Time, Effort, and Frustration

- ✓ Intelligently match the RegScale's data fields to your desired output
- ✓ Map your custom RegScale fields for export, increasing transparency and relevancy
- ✓ Respond to requests with speed and confidence, and avoid hours of work with one-click output generation

## Transforming the GRC Industry

RegScale's award-winning Continuous Controls Monitoring (CCM) platform is a cloud-native, automation-driven solution that helps companies achieve better GRC outcomes in less time and at less cost.

Supercharges every phase of your control lifecycle with seamless data integrations, extreme automation, compliance as code, and advanced AI.

### Get help with:

- ✓ Policy & Compliance
- ✓ Simplified Risk Management
- ✓ Continuous Compliance Automation
- ✓ Third-Party Risk Management

## Our Track Record of Success

By automating manual GRC processes, RegScale helps organizations reduce costs, stay always audit-ready, and improve their security posture. Here are a few recent wins:

- ✓ **60% reduction** in audit prep and response time
- ✓ **1-Click** control gap assessment scorecard with RegML, RegScale's AI Auditor
- ✓ **80% higher accuracy** with automated control documentation using RegML's Authoring capabilities
- ✓ **94% reduction** in effort to complete SOC 2 Type 2
- ✓ **300% faster time** and **50% less cost** to achieve FedRAMP High In Review
- ✓ **30% lower costs** and faster timeline for CMMC

## Who We Serve: Our Growing Network

Organizations in tech, research, consulting, national security, and more have chosen RegScale to accelerate their compliance programs and enable better GRC outcomes. As regulatory requirements grow, there's a rising need to shift from periodic assessments to Continuous Controls Monitoring with on-demand reporting in framework-specific formats. RegScale's CCM solution is transforming how organizations manage continuous compliance and future-proof their GRC.
