Market Expansion:
Easily Increase Your Control Coverage
Minimize the Cost of New Certifications and Rapidly Expand into New Markets

60%
Reduction in audit prep & response

Fortune 500 giant struggled to align multiple frameworks including NIST 800-53 without drowning in spreadsheets and redundancies. Their quest for a test-once, comply-many solution led them to RegScale. The result? A compliance metamorphosis—eliminating excess, pinpointing gaps, and empowering crystal-clear reporting to their Board.

Auto-Mapping Controls: Minimize Rework for New and Changing Regulations

Implement and assess once, then reuse controls across multiple frameworks to eliminate redundant work and enter new markets and achieve new certifications more rapidly.

Accelerate certifications with Automated Controls Mapping. RegScale's unique integration with the Unified Compliance Framework (UCF) revolutionizes compliance management by applying a single control across various frameworks automatically. This seamless mapping eliminates redundancy, harmonizes compliance processes across frameworks, and updates control statuses in real-time across all standards when changes occur.

Redundant Manual Work: Setting Money on Fire

- **Duplicate Data Entry:** Manual copy and paste exercises across regulations
- **Cross-Reference Hell:** Manually maintaining huge Excel mapping files
- **Framework Fatigue:** Endless regulatory changes create rework
- **Regulatory Whack-a-Mole:** Always a moving target
- **Audit Agony:** Fear and anxiety knowing paperwork is always out of date

Rapid Market Expansion: CCM Automation
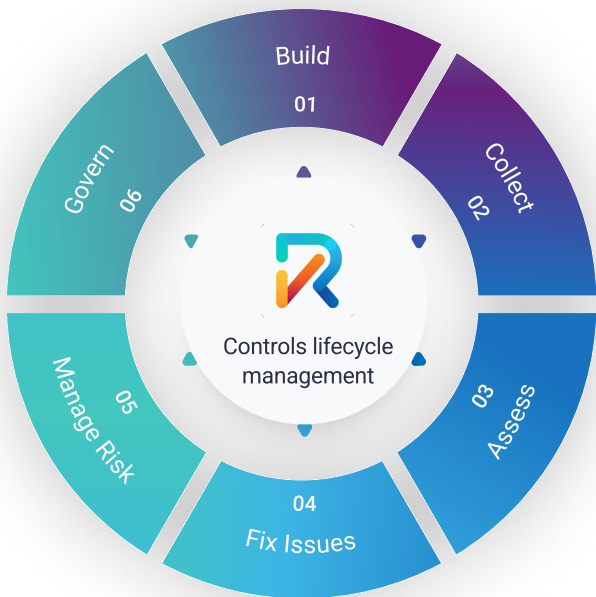

SPEED LIMIT FAST!

- **Compliance, Uncomplicated:** Drastically simplify your compliance landscape
- **Slash the Overhead:** Cut down on labor and costs
- **Regulatory Agility:** Swiftly pivot to meet new regulations
- **Strategic Focus:** Get to new markets faster
- **Write Once, Map Everywhere:** Automate compliance, multiply effectiveness

Mapping Mastery: A Customer's Control Transformation

Faced with the labyrinth of NIST 800-53 compliance, a Fortune 500 giant struggled to align multiple frameworks without drowning in spreadsheets and redundancies. Their quest for a test-once, comply-many solution led them to RegScale. The result? A compliance metamorphosis—eliminating manual updates, pinpointing gaps, and empowering crystal-clear reporting to their Board.

Assess 03
Fix Issues 04
Manage Risk 05
Govern 06

Simplify and Future Proof Your Control Monitoring

Supercharge every phase of your control lifecycle with seamless data integrations, self-updating paperwork, extreme automation, and advanced AI. Stay always audit ready, reduce costs, and improve your security posture to prepare for a cloud-native and rapidly changing technology landscape.

Automated Control Lifecycle Management

Simplify and streamline your control lifecycle with advanced automation, industry-leading AI, and pre-built business processes based on decades of lessons learned in the industry. Rapidly configure to meet your unique business requirements and then ruthlessly automate every phase of the control lifecycle.

Automated Controls Mapping – Key Features

Once you've obtained your first certification with RegScale, control mapping will accelerate the next one, and then the next one, continuously and automatically mapping controls to multiple frameworks.

UCF Integration
