

# RegScale + COALFIRE

## The Industry Partnership Redefining GRC Excellence

Coalfire doesn't just use RegScale — they've made it their secret weapon for delivering unmatched FedRAMP advisory services as our customer and our strategic partner. With IL5 authorization and pioneering OSCAL Foundation creds, RegScale provides the secure, compliant foundation that Coalfire's FedRAMP and other advisory work demands.

### Dramatic Efficiency Gains

40%

Faster document development time for System Security Plans (SSPs)

Authorized FedRAMP and DoD IL5 provider to securely store and process compliance evidence

FR  
FedRAMP

DOD  
IL5

Scalable support for managing multiple ATOs and upgrading from FedRAMP Moderate to High

Faster time to submit FedRAMP High

300%

OSCAL  
FOUNDATION

Founding member of the OSCAL Foundation with an OSCAL-native platform that enables compliance as code

## End-to-End FedRAMP Support

We support Coalfire’s FedRAMP advisory work from end to end by streamlining evidence gathering, writing automated control implementation statements, and bringing trust and accountability — whether you’re working toward your first ATO or seeking economies of scale for managing multiple ATOs.

- ✓ **Gap Assessment:** Enhances Coalfire’s initial assessment process with automation and compliance as code.
- ✓ **Document Development:** RegML technology creates control implementation statements and high-quality SSPs 40% faster.
- ✓ **Package Preparation:** Streamlines preparation of the Readiness Assessment Report for auditors, sponsors, and FedRAMP PMO.
- ✓ **Continuous Monitoring:** Provides ongoing support alongside Coalfire to ensure continued compliance after ATO.

## COALFIRE

Coalfire® is an industry leader in cybersecurity services and solutions. The company offers cutting-edge cybersecurity, advisory, and assessment services. It develops technology platforms that automate defenses against security threats for the world’s leading enterprises, cloud providers, and SaaS companies.

## RegScale

RegScale’s AI-powered CCM platform transforms GRC by automating compliance, reducing costs, streamlining processes, and integrating seamlessly into DevSecOps for faster, more efficient risk management.
