

Simplify Financial Compliance: From Burden to Set and Forget

Intelligent automation and AI: transformative innovation you can bank on.

Achieve Compliance at Scale Through Intelligent Automation

- ✓ Tackle an ever-expanding web of financial industry regulations — from PCI DSS, FFIEC, SEC, and CRI— with less time and effort.
- ✓ Use advanced workflows, AI-driven automation, and extensibility to scale compliance efforts without scaling your entire team.

Master Regulatory Exam Management

- ✓ Reduce effort across frameworks with control mapping.
- ✓ Use automation to simplify and speed up the evidence collection processes.
- ✓ Get AI-enabled intelligent gap analysis for enhanced real-time visibility into updated regulations and frameworks.

Save Resources and Improve ROI

- ✓ Dramatically reduce time spent on manual compliance tasks, including 60% less time and effort for audit prep.
- ✓ Speed up the reporting process via audit-ready documentation so staff can focus on risk and security.
- ✓ Future-proof your compliance program for upcoming regulatory changes and new technologies.

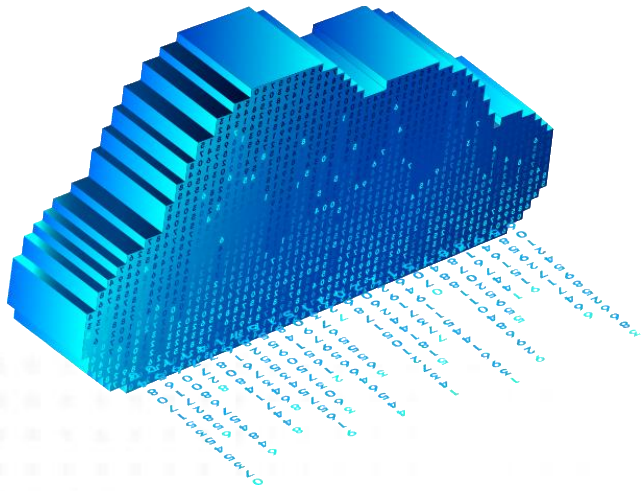

RegScale & CRI: Improving Speed and Confidence

RegScale's collaboration with the Cyber Risk Institute, which includes licensing the CRI Profile, offers support for key financial regulations and mapping to a consolidated control list.

➤ The result?

A common controls framework that streamlines manual processes, supports regulatory confidence, and simplifies compliance for banks and financial services organizations.

The Simplicity of Enabling Cross-Functional CCM

- ✓ Break down siloes to simplify the exchange of information and speed up compliance timelines.
- ✓ Easily scale up operations and reduce risk in real-time, cloud native environments.
- ✓ Reduce findings in regulatory exams by continuously monitoring your environment in RegScale

Serving the Financial Sector and Beyond

Organizations in finance, banking, insurance, and other complex regulatory environments have chosen RegScale to simplify their risk and compliance programs while improving their GRC outcomes. Customers include:

- ✓ A leading cybersecurity and compliance advisory firm
- ✓ A top biometric identity verification company
- ✓ A large deposit taking Banking institution
- ✓ A multinational professional services firm
- ✓ And many more.

Escape the complexity of legacy GRC tools.

Cut costs with a lightweight and automated solution.
